

MD Anderson 2006-0198: CAM Use and Cancer

Fast Facts

Inclusion Criteria for Nurses

1. Nurses who have regular contact by initially talking with oncology patients, taking their histories and conveying pertinent information to their physician at a participating Community Clinical Oncology Program (CCOP) site.
2. Nurses must sign a written informed consent document (Appendix A).

Exclusion Criteria for Nurses

1. Nurses who are not actively seeing patients at a participating CCOP site.
2. Nurses must not be employed at more than one participating site and must not be temporary employees.

Inclusion Criteria for Patients

1. Patients must have a current diagnosis of cancer including amyloidosis.
2. Patients must be at least one week post-diagnosis and no longer than six months post treatment.
3. Patients must have the ability to understand and sign a written informed consent document (Appendix B).

Exclusion Criteria for Patients

1. Patients with an inability to speak or read English.
2. Patients who have previously participated in this study at an earlier assessment.

Schema

Each CCOP site is randomized to Intervention or Waitlist Control
